COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

Three of the municipal officials, Samuel Timberlake, Robert Davis, and myself, were in Orono Wednesday to attend a seminar on various rate structures that may be applied for sewage use. We felt we would not have as much problem in this area as some communities as we have no industrial waste entering our system. Where this is an industry, the rates should be based, not completely on volume, but the concentration of pollution must also be considered.

We are now working on specifications for the new loader. We have the basic machine planned, now we are considering features of the various models that might be desirable but with which we have not had experience.

There have not been any applications signed for land classification through the farmland and open space exemption law. No one felt there was enough need, at this time, for them to involve themselves to the extent necessary to qualify.

GEM AND MINERAL ASSN. TO MEET AT RUMFORD APRIL 12

The Oxford County Gem and Mineral Association will meet at 7:30 p. m. Wednesday, April 12 in the Public Room of the Rumford Library and have as guest speakers, Hoyt G. Hall, assistant Chief Forester of White Mt. National Forest, and John Anderson, District Ranger, Bethel. They will speak on the new revised policy for Mineral Collecting within the White Mt. National Forest and reasons for revision.

This area contains many well known locations that thousands of people visit each year in the hopes of picking up a nice specimen that will add to their collections. Mineral collectors from at least 30 different states and one from as far away as Geneva, Switzerland, visited parts of this area within the past three years. Such localities as: Hurricane Mt., Percy Peaks, Green's Ledges, Bald Face, Passaconaway, Deer Hill, Little Deer Hill, Hammond Mt., and Lord Hill to name a few of the known places that are asbestos, smoky quartz, phenacite, beryl, topaz crystals, and many more have added their little bit of enjoyment to the collector or perhaps their bit of sorrow for not having found as good a specimen as they have been shown in a collection.

This is a brief background of how some feel about this area, and the feeling that their privilege of collecting is now in jeopardy. Come see and hear what must be done to preserve this privilege, and perhaps what collectors can do to help the Ranger Service.

A supper to benefit the Little Legion Baseball Team will be held at the Legion Hall, April 10. For further information contact Mrs. Virginia Brown.

CONSUMER
PROTECTION?

Concerned . . . very concerned! If we weren't, we would not have an unconditional money back satisfaction guarantee on every product we sell . . . no matter who makes it.

If we weren't, we would not have established, decades ago, our "Quality Control Laboratory".

How does the laboratory protect you?

Well, at A&P, we're pretty fussy about the products we sell.

So, before we will stock a product, we check it out pretty carefully.

Our lab has checked thousands of products. If they don't think the product measures up, you'll never find it on an A&P shelf . . . no matter who the maker is or who is behind the product.

It's not always easy to care
